ABOUT SMOVIN

Smovin is a fast growing start-up based in La Hulpe, Belgium. We are a team of 12 passionate people.

Our mission is to help property owners manage their real estate investments by automating their tasks, following their revenues and expenses, centralising their documents and offering relevant insights through dashboards. And much more!

Our goal is to become the number 1 tool for real estate management in Europe.
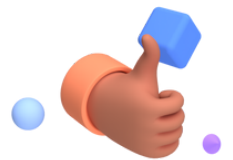

WHAT WE ARE LOOKING FOR

We are looking for an experienced Product Designer with at least 5 years of experience.

If you are passionate about designing products that solve real-world problems and have a proven track record of creating beautiful and functional user interfaces and experiences, we encourage you to apply for this exciting opportunity.

YOUR RESPONSIBILITIES

- Lead the design of user interfaces and experiences for our web and mobile applications.
- Collaborate with the product and engineering teams to ensure that our products meet the needs of our users.
- Create wireframes, prototypes, and high-fidelity designs.
- Conduct user research, interviews and usability testing to inform design decisions.
- Iterate designs based on feedback and testing results
- Help to develop and maintain a design system, style guides, and creative processes
- Stay up-to-date with industry trends and best practices.

WHAT WE OFFER

- A central position in the team where you will be able to contribute with your ideas
- Supportive team dynamics: Join a close-knit team of passionate professionals who foster a cooperative environment, emphasising open communication, teamwork, and mutual support.
- Hybrid, 2 days of work onsite (La Hulpe - Belgium).
- Flexible working hours.
- Laptop & software of your needs.
- We support the development of our employees and are open to funding training or events.

smovin
